SSBN Ohio Class

General Dynamics Advanced Information Systems in Pittsfield, MA received a \$28.3 million cost-plus-incentive-fee contract to provide TRIDENT II MK98 MOD 6/7 Strategic

Weapons Systems Development and Production. The Mk98 mod 6/7 is an updated fire control system for the SSBN 726 Ohio Class nuclear ballistic missile submarines and their Trident II nuclear missiles.

Work will be performed in Pittsfield, MA and is expected to be complete by December 2009. This contract was not competitively procured by the Navy's Strategic Systems Programs in Washington, DC (N00030-05-C-0051).
