

HARD LUCK

# Scientists Against Nuclear Arms

## Scottish Group

24.9.82.

Dear Madam/Sir,

With reference to Operation Hard Luck — SANA provided you with a map of Scotland with bomb plot & effects of HARD LUCK on Thurs. 23/9. for campaign work following press conference. You will need to know that: —

① Red circles represent area in which 50% of exposed people will die as a result of THERMAL BURNS. (2°/3°).

② GREEN plumes represent area in which 50% of exposed people will die

as a result of RADIATION from fallout  
(Every exposed person receives 450 rads.  
accumulated dose in 2 weeks & as a  
result. 50% die within 6 weeks as a  
direct result of radiation sickness.)

We would be grateful for £10 to cover  
costs of map & materials + effort!  
for this resource. (pay — SANA Scottish  
Group)

(PS. In August, I sent photocopies of  
our exhibition on the effects of a  
nuclear attack on Glasgow to Matth  
Schmidbauer. This cost £20 &  
we need either the money or  
the photocopies returned.)  
as we are pretty bankrupt !!)

Yours for peace.
